Mr. David S. Ahlberg  
Manager Plant Administration  
CAM-OR Westville  
P.O. Box 587  
Westville, Indiana 46391

Re: Freedom of Information Act Request  
(5) RIN-582-83

Dear Mr. Ahlberg:

This is in response to your Freedom of Information Act request received on October 20, 1983.

We are enclosing copies of 18 Resource Conservation and Recovery Act (RCRA) documents on the following facilities:

CAM-OR, Inc.  
2340 S. Tibbs  
Indianapolis, IN 46241  
IND006054886 ✓

Westville Oil Company  
State Road #2  
Westville, IN 46391  
IND005480462

The documents are detailed on the enclosed list.

Also, enclosed is a Bill for Collection on which the fees for this request have been itemized. Please return the top portion of the billing form with your check or money order in the amount of \$16.90, payable to the United States Environmental Protection Agency and forward your remittance to the address listed on the billing form. Payment is due within 30 days.

Please contact Ms. April Katsura of my staff at (312) 886-6134, if you have any questions or are in need of further assistance.

Sincerely,

Basil G. Constantelos, Director  
Waste Management Division

RE: Interim Status Acknowledgement  
FACILITY NAME: CAM-OR Inc. AA Oil Co. Div.

USEPA ID No. IND006054886

Dear Mr. Kimball:

This is to acknowledge that the U.S. Environmental Protection Agency (USEPA) has completed processing your Part A Hazardous Waste Permit Application. It is the opinion of this office that the information submitted is complete and that you, as an owner or operator of a hazardous waste management facility, have met the requirements of Section 3005(e) of the Resource Conservation and Recovery Act (RCRA) for Interim Status. However, should USEPA obtain information which indicates that your application was incomplete or inaccurate, you may be requested to provide further documentation of your claim for Interim Status. Our opinion will be reevaluated on the basis of this information.

As an owner or operator of a hazardous waste management facility, you are required to comply with the interim status standards as prescribed in 40 CFR Parts 122 and 265, or with State rules and regulations in those States which have been authorized under Section 3006 of RCRA. In addition, you are reminded that operating under interim status does not relieve you from the need to comply with all applicable State and local requirements.

The printout enclosed with this letter identifies the limit(s) of the process design capacities your facility may use during the interim status period. This information was obtained from your Part A Permit application. If you wish to handle new wastes, to change processes, to increase the design capacity of existing processes, or to change ownership or operational control of the facility, you may do so only as provided in 40 CFR Sections 122.22 and 122.23.

As stated in the first paragraph of this letter, you have met the requirements of 40 CFR Part 122.23; your facility may operate under interim status until such time as a permit is issued or denied. This will be preceded by a request from this office or the State (if authorized) for Part B of your application. Please contact Arthur Kawatachi of my staff at (312) 886-7449, if you have any questions concerning this letter or the enclosure.

Sincerely,

Karl J. Klepitsch, Jr., Chief  
Waste Management Branch

**ACKNOWLEDGEMENT OF NOTIFICATION  
OF HAZARDOUS WASTE ACTIVITY  
(VERIFICATION)**

This is to acknowledge that you have filed a Notification of Hazardous Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act (RCRA). Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Annual Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.

RE: Withdrawal of Part A  
CAM-OR, Incorporated  
IND 006054886

Dear Mr. Morris:

This is to acknowledge receipt of your letter of July 8, 1985, requesting withdrawal of your Part A RCRA permit application. According to the information which you certified, CAM-OR, Incorporated has never received or stored any hazardous waste. We are hereby withdrawing your Part A permit application and we are recind-ing our letter of September 28, 1984, requesting submittal of your RCRA Part B per-mit application.

Should you decide in the future to initiate hazardous waste activities you must (1) resubmit the Part A application, and (2) submit a complete Part B application within 30 days of such initiation. The Part B application would need to contain all of the information required by 40 CFR 270.14 - 270.15. Failure to submit Parts A and B of the RCRA application would subject you to enforcement action.

If you have any questions on this matter, please contact Ms. Judy Kleiman of my staff at (312) 886-1482 for assistance.

Sincerely,

A handwritten signature in cursive script, appearing to read "Judy Kertcher".

JUL 11 1985

SOLID WASTE BRANCH  
U.S. EPA, REGION V

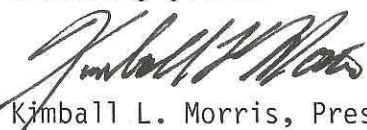

Dear Ms. Ardiente:

Attached is a Certification drawn in accordance with 40 CFR 270.11 requesting that we withdraw our Part A permit application.

Also attached to this letter is a recently received letter from the Indiana State Board of Health in regard to a RCRA TSD inspection made at our Indianapolis facility on May 13, 1985. In this letter the State of Indiana agrees with our representation that the facility at Indianapolis does not generate listed hazardous waste and as you will see by that letter they have directed us to file a Certificate to you.

Should you need any additional information we will be happy to provide it for you.

Sincerely yours,

Kimball L. Morris, President

CERTIFICATE

CAM-OR, INC., an Indiana corporation, certifies through this document that its Indianapolis facility, operating under the division name of A. A. Oil Company, should not be subject to regulation under RCRA. The A. A. Oil Company in Indianapolis collects used crankcase oil which is transferred to another Company facility. The A. A. facility has never received or stored any hazardous waste within 40 CFR 261.31-261.32, and consequently does not qualify as a RCRA facility. As part of this certification, CAM-OR, INC. requests the withdrawal of our Part A application for our Indianapolis facility.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

IN WITNESS WHEREOF, the undersigned has caused this Certificate to be executed as of this 8th day of July, 1985.

  
Kimball L. Morris

President

Attention: Edith Ardiente

Dear Edith:

This letter is a follow-up to my November 30, 1985 letter, regarding CAM-OR INC.'s Part A application. There are two separate issues to deal with in this discussion: the classification of waste oil as hazardous and the listing of KO48, KO50, KO51 and KO52 wastes. I would like to clarify our position somewhat further.

In the preamble to the definition of solid waste published January 4, 1985, EPA states that used oil "...presently is exempt from regulation during the time it takes to develop standards...". Once again, please call on us if we can be of assistance during this process.

In our original application (Part A), we listed several wastes as being stored at the Westville facility. This was a precautionary listing and in fact, only one of the wastes has even been generated, and that has been handled in compliance with generator standards. We would like to get out of the system finally on these wastes. We are presently generating KO48 DAF sludge. All others have not been generated. Please advise the proper procedure to do this.

Edith, I appreciate your patience on this matter.

Sincerely,

David S. Ahlberg  
Resource Manager

RE: CAM-OR, Inc., AA Oil Co. Division  
2340 South Tibbs  
Indianapolis, Indiana 46241  
IND 006054886

Dear Mr. Kimball:

By now you should have received an acknowledgement of our receipt of the Part A permit application material for the above-referenced hazardous waste facility under the Resource Conservation and Recovery Act (RCRA) permit program. Accordingly, this letter constitutes the next step in the formal process leading toward issuance or denial of a RCRA permit. Under the authority of 40 CFR 270.10, this is a formal request for submittal of Part B of the permit application for the above-referenced facility.

Enclosed is a copy of 40 CFR 270.14, which lists the items required for submitting the Part B permit application for the facility. The Part B application must be submitted in quadruplicate and postmarked no later than April 5, 1985. The original and 3 copies of the application must be sent to the United States Environmental Protection Agency (U.S. EPA) at the address below. Please uniquely number each page of the application including all attachments (maps, specifications, etc.). A certification statement identical to the one stated in 40 CFR 270.11(d) must accompany the application and all additional submittals. Send your application to the following address:

RCRA ACTIVITIES  
Part B Permit Application  
U.S. EPA, Region V  
P.O. Box A3587  
Chicago, Illinois 60690-3587

We are committed to conducting the RCRA permitting process as efficiently as possible. Consequently, I suggest you contact Mr. Glenn Bruck of my staff, at (312) 886-1482, as you begin preparing your application. Mr. Bruck will be available to discuss specific needs of your application or to meet with you in Chicago. These efforts are intended to generate complete applications, without requiring any information beyond that which is necessary to make RCRA permit decisions.

Failure to furnish the complete Part B permit application by the above date, and to provide in full all required information, is grounds for termination of interim status under 40 CFR 270.10.

Information in the Part B permit application can be disclosed to the public, according to the Freedom of Information Act and U.S. EPA Freedom of Information regulations. If you wish, however, you may assert a claim of business confidentiality by printing the word "Confidential" on each page of the application which you believe contains confidential business information. All incoming materials containing confidential business information should be sent in a double envelope--one envelope inside the other. The inner envelope is to be addressed to the Docket Control Officer (DCO) with the following instructions: "to be opened only by the DCO."

U.S. EPA will review business confidentiality claims under regulations in 40 CFR Part 2, and may later request substantiation of such claims. Please review these rules carefully before making a claim. If you claim parts of your application as confidential, please provide us with a public information copy of the application. The public information copy must be identical to the full application with the exclusion of the confidential information.

We have also enclosed a copy of 40 CFR Part 264, which includes technical standards for the operation of treatment, storage, and land disposal facilities. These standards will become applicable to your facility upon issuance of a RCRA permit by U.S. EPA. A copy of our "Guidance For Permit Application Preparation" and "Part B Completeness Checklist" are also enclosed, they will help you in preparing a comprehensive and complete permit application.

We will coordinate review of the application with the Indiana State Board of Health (ISBH), and will strive for the simultaneous issuance of Federal and State hazardous waste facility permits. It is possible that during the processing of the application, the State hazardous waste program may become authorized to issue RCRA permits for your type of facility. In that case, direct Federal processing will cease, and ISBH in lieu of U.S. EPA will make the final determination on your permit application.

We look forward to receiving your Part B permit application.

Sincerely yours,

Karl J. Klepitsch, Jr., Chief  
Waste Management Branch

RE: Cam-Or, Incorporated  
Indianapolis, Indiana  
IND 006054886

Dear Mr. Morris:

Your letter of March 22, 1985, requesting withdrawal of your Part A application has been received. If you believe that a Resource Conservation and Recovery Act (RCRA) permit for the Cam-Or, Incorporated facility at Indianapolis is not necessary at this time, you must certify that this facility has never received and stored any hazardous waste listed in 40 CFR 261.31 - 261.32. Certification must be in accordance with 40 CFR 270.11. After you have certified that you have never received and stored any of the above referenced hazardous wastes, you may request withdrawal of your Part A permit application.

Should you wish to receive or store listed hazardous waste in the future, you would be required to 1) resubmit a new Part A of the RCRA permit application and 2) submit a complete Part B within 30 days of initiating such activity.

If you have any questions on this matter, please contact Ms. Judy Kleiman of my staff at (312) 886-1482 for assistance.

Sincerely yours,

Edith M. Ardiente, P.E.  
Chief, Technical Programs Section

FORM 1 GENERAL		ENVIRONMENTAL PROTECTION AGENCY GENERAL INFORMATION Consolidated Permits Program (Read the "General Instructions" before starting.)	
I. EPA I.D. NUMBER		IND 006054886	
III. FACILITY NAME		NAME: A.A. OIL CO. DIV.	
V. FACILITY MAILING ADDRESS		STREET ADDRESS: P.O. BOX 41271 Indianapolis, IN 46241	
VI. FACILITY LOCATION		CITY, STATE, & ZIP CODE: 2340 S. Tibbs Ave., Indpls, IN 46241	

I. EPA I.D. NUMBER											
F IND 006054886 3 D											
GENERAL INSTRUCTIONS											
If a preprinted label has been provided, affix it in the designated space. Review the information carefully; if any of it is incorrect, cross through it and enter the correct data in the appropriate fill-in area below. Also, if any of the preprinted data is absent (the area to the left of the label space lists the information that should appear), please provide it in the proper fill-in area(s) below. If the label is complete and correct, you need not complete Items I, III, V, and VI (except VI-B which must be completed regardless). Complete all items if no label has been provided. Refer to the instructions for detailed item descriptions and for the legal authorizations under which this data is collected.											

**II. POLLUTANT CHARACTERISTICS**

**INSTRUCTIONS:** Complete A through J to determine whether you need to submit any permit application forms to the EPA. If you answer "yes" to any questions, you must submit this form and the supplemental form listed in the parenthesis following the question. Mark "X" in the box in the third column if the supplemental form is attached. If you answer "no" to each question, you need not submit any of these forms. You may answer "no" if your activity is excluded from permit requirements; see Section C of the instructions. See also, Section D of the instructions for definitions of bold-faced terms.

SPECIFIC QUESTIONS	MARK 'X'			SPECIFIC QUESTIONS	MARK 'X'		
	YES	NO	FORM ATTACHED		YES	NO	FORM ATTACHED
A. Is this facility a publicly owned treatment works which results in a discharge to waters of the U.S.? (FORM 2A)		X		B. Does or will this facility (either existing or proposed) include a concentrated animal feeding operation or aquatic animal production facility which results in a discharge to waters of the U.S.? (FORM 2B)		X	
C. Is this a facility which currently results in discharges to waters of the U.S. other than those described in A or B above? (FORM 2C)		X		D. Is this a proposed facility (other than those described in A or B above) which will result in a discharge to waters of the U.S.? (FORM 2D)		X	
E. Does or will this facility treat, store, or dispose of hazardous wastes? (FORM 3) Yes - maybe	X			F. Do you or will you inject at this facility industrial or municipal effluent below the lowermost stratum containing, within one quarter mile of the well bore, underground sources of drinking water? (FORM 4)		X	
G. Do you or will you inject at this facility any produced water or other fluids which are brought to the surface in connection with conventional oil or natural gas production, inject fluids used for enhanced recovery of oil or natural gas, or inject fluids for storage of liquid hydrocarbons? (FORM 4)		X		H. Do you or will you inject at this facility fluids for special processes such as mining of sulfur by the Frasch process, solution mining of minerals, in situ combustion of fossil fuel, or recovery of geothermal energy? (FORM 4)		X	
I. Is this facility a proposed stationary source which is one of the 28 industrial categories listed in the instructions and which will potentially emit 100 tons per year of any air pollutant regulated under the Clean Air Act and may affect or be located in an attainment area? (FORM 5)		X		J. Is this facility a proposed stationary source which is NOT one of the 28 industrial categories listed in the instructions and which will potentially emit 250 tons per year of any air pollutant regulated under the Clean Air Act and may affect or be located in an attainment area? (FORM 5)		X

Attach to this application a topographic map of the area extending to at least one mile beyond property boundaries. The map must show the outline of the facility, the location of each of its existing and proposed intake and discharge structures, each of its hazardous waste treatment, storage, or disposal facilities, and each well where it injects fluids underground. Include all springs, rivers and other surface water bodies in the map area. See instructions for precise requirements.

F 9: B/50

## XII. NATURE OF BUSINESS (provide a brief description)

Collect waste oil from service stations and hold for transport to re-refinery.

F9: A151

## XIII. CERTIFICATION (see instructions)

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this application and all attachments and that, based on my inquiry of those persons immediately responsible for obtaining the information contained in the application, I believe that the information is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

FOR OFFICIAL USE ONLY

APPLICATION APPROVED	DATE RECEIVED (yr., mo., & day)

COMMENTS

II. FIRST OR REVISED APPLICATION

Place an "X" in the appropriate box in A or B below (mark one box only) to indicate whether this is the first application you are submitting for your facility or a revised application. If this is your first application and you already know your facility's EPA I.D. Number, or if this is a revised application, enter your facility's EPA I.D. Number in Item I above.

A. FIRST APPLICATION (place an "X" below and provide the appropriate date)

☒ 1. EXISTING FACILITY (See instructions for definition of "existing" facility. Complete item below.)

☐ 2. NEW FACILITY (Complete item below.)

OPER EXISTING FACILITIES, PROVIDE THE DATE (yr., mo., & day) OPERATION BEGAN OR THE DATE CONSTRUCTION COMMENCED (use the boxes to the left)

B. REVISED APPLICATION (place an "X" below and complete Item I above)

☐ 1. FACILITY HAS INTERIM STATUS

☐ 2. FACILITY HAS A RCRA PERMIT

III. PROCESSES - CODES AND DESIGN CAPACITIES

A. PROCESS CODE - Enter the code from the list of process codes below that best describes each process to be used at the facility. Ten lines are provided for entering codes. If more lines are needed, enter the code(s) in the space provided. If a process will be used that is not included in the list of codes below, then describe the process (including its design capacity) in the space provided on the form (Item III-C).

B. PROCESS DESIGN CAPACITY - For each code entered in column A enter the capacity of the process.

1. AMOUNT - Enter the amount.

2. UNIT OF MEASURE - For each amount entered in column B(1), enter the code from the list of unit measure codes below that describes the unit of measure used. Only the units of measure that are listed below should be used.

PROCESS	PRO- CESS CODE	APPROPRIATE UNITS OF MEASURE FOR PROCESS DESIGN CAPACITY	PROCESS	PRO- CESS CODE	APPROPRIATE UNITS OF MEASURE FOR PROCESS DESIGN CAPACITY
<b>Storage:</b>			<b>Treatment:</b>		
CONTAINER (barrel, drum, etc.)	S01	GALLONS OR LITERS	TANK	T01	GALLONS PER DAY OR LITERS PER DAY

X-2	T 0 3	20	E	6			
1	S 0 2	327,400	G	7			
				8			
3				9			
4				10			

**III. PROCESSES (continued)**

C. SPACE FOR ADDITIONAL PROCESS CODES OR FOR DESCRIBING OTHER PROCESSES (code "T04"). FOR EACH PROCESS ENTERED HERE INCLUDE DESIGN CAPACITY.

N/A

**IV. DESCRIPTION OF HAZARDOUS WASTES**

A. **EPA HAZARDOUS WASTE NUMBER** — Enter the four-digit number from 40 CFR, Subpart D for each listed hazardous waste you will handle. If you handle hazardous wastes which are not listed in 40 CFR, Subpart D, enter the four-digit number(s) from 40 CFR, Subpart C that describes the characteristics and/or the toxic contaminants of those hazardous wastes.

B. **ESTIMATED ANNUAL QUANTITY** — For each listed waste entered in column A estimate the quantity of that waste that will be handled on an annual basis. For each characteristic or toxic contaminant entered in column A estimate the total annual quantity of all the non-listed waste(s) that will be handled which possess that characteristic or contaminant.

C. **UNIT OF MEASURE** — For each quantity entered in column B enter the unit of measure code. Units of measure which must be used and the appropriate codes are:

ENGLISH UNIT OF MEASURE	CODE	METRIC UNIT OF MEASURE	CODE
POUNDS.....	P	KILOGRAMS.....	K
TONS.....	T	METRIC TONS.....	M

If facility records use any other unit of measure for quantity, the units of measure must be converted into one of the required units of measure taking into account the appropriate density or specific gravity of the waste.

**D. PROCESSES****1. PROCESS CODES:**

**For listed hazardous waste:** For each listed hazardous waste entered in column A select the code(s) from the list of process codes contained in Item III to indicate how the waste will be stored, treated, and/or disposed of at the facility.

**For non-listed hazardous wastes:** For each characteristic or toxic contaminant entered in column A, select the code(s) from the list of process codes contained in Item III to indicate all the processes that will be used to store, treat, and/or dispose of all the non-listed hazardous wastes that possess that characteristic or toxic contaminant.

**Note:** Four spaces are provided for entering process codes. If more are needed: (1) Enter the first three as described above; (2) Enter "000" in the extreme right box of Item IV-D(1); and (3) Enter in the space provided on page 4, the line number and the additional code(s).

**2. PROCESS DESCRIPTION:** If a code is not listed for a process that will be used, describe the process in the space provided on the form.

**NOTE: HAZARDOUS WASTES DESCRIBED BY MORE THAN ONE EPA HAZARDOUS WASTE NUMBER** — Hazardous wastes that can be described by more than one EPA Hazardous Waste Number shall be described on the form as follows:

- Select one of the EPA Hazardous Waste Numbers and enter it in column A. On the same line complete columns B, C, and D by estimating the total annual quantity of the waste and describing all the processes to be used to treat, store, and/or dispose of the waste.
- In column A of the next line enter the other EPA Hazardous Waste Number that can be used to describe the waste. In column D(2) on that line enter "included with above" and make no other entries on that line.
- Repeat step 2 for each other EPA Hazardous Waste Number that can be used to describe the hazardous waste.

**EXAMPLE FOR COMPLETING ITEM IV (shown in line numbers X-1, X-2, X-3, and X-4 below)** — A facility will treat and dispose of an estimated 900 pounds per year of chrome shavings from leather tanning and finishing operation. In addition, the facility will treat and dispose of three non-listed wastes. Two wastes are corrosive only and there will be an estimated 200 pounds per year of each waste. The other waste is corrosive and ignitable and there will be an estimated 100 pounds per year of that waste. Treatment will be in an incinerator and disposal will be in a landfill.

LINE NO.	A. EPA HAZARDOUS WASTE NO. (enter code)	B. ESTIMATED ANNUAL QUANTITY OF WASTE	C. UNIT OF MEASURE (enter code)	D. PROCESSES	
				1. PROCESS CODES (enter)	2. PROCESS DESCRIPTION (if a code is not entered in D(1))
X-1	K 0 5 4	900	P	T 0 3 D 8 0	
X-2	D 0 0 2	400	P	T 0 3 D 8 0	
X-3	D 0 0 1	100	P	T 0 3 D 8 0	
X-4	D 0 0 2				included with above

NOTE: Photocopy this page before completing if you have more than 26 wastes to list.

Mr. David A. Stringham  
Chief, Solid Waste Branch  
United States Environmental  
Protection Agency  
Region V  
230 South Dearborn Street  
Chicago, Illinois 60604

Dear Mr. Stringham:

I am writing in regard to your letter recently asking for a survey form to be filled out in regard to CAM-OR, INC's A.A. Oil Indiana facility. For the terms of your letter, the permit at our Indiana facility was terminated by your office on September 30, 1985, a copy of your letter is included with mine. I assume from reading your letter that the questionnaire regarding potential releases are not required for the Indianapolis A.A. Oil facility.

If you have any questions please let me know.

Sincerely,

Kimball L. Morris, President

RE: Withdrawal of Part A  
CAM-OR, Incorporated  
IND 006054886

Dear Mr. Morris:

This is to acknowledge receipt of your letter of July 8, 1985, requesting withdrawal of your Part A RCRA permit application. According to the information which you certified, CAM-OR, Incorporated has never received or stored any hazardous waste. We are hereby withdrawing your Part A permit application and we are recinding our letter of September 28, 1984, requesting submittal of your RCRA Part B permit application.

Should you decide in the future to initiate hazardous waste activities you must (1) resubmit the Part A application, and (2) submit a complete Part B application within 30 days of such initiation. The Part B application would need to contain all of the information required by 40 CFR 270.14 - 270.15. Failure to submit Parts A and B of the RCRA application would subject you to enforcement action.

If you have any questions on this matter, please contact Ms. Judy Kleiman of my staff at (312) 886-1482 for assistance.

Sincerely,

*Judy Kertcher*

Chicago, IL 60604

April 25, 1985

Dear Ms. Kleiman:

Re: Permit Writer's Site Visit  
A.A. Oil Company  
Division of CAM-OR, Inc.  
Indianapolis, Indiana

IND 041855776

IND 006054886

On March 5, 1985, Mr. Desi Chari, staff engineer, and Ms. Janet Snedeker, of my staff, conducted a permit writer's site visit at A.A. Oil Company, Indianapolis. The facility representative was Mr. Kimball Morris, President. The visit consisted of a conference to discuss the applicable requirements to be addressed in the Part B application and an observational inspection of the site.

During the conference, Mr. Morris discussed A.A. Oil's position regarding their status as a G/T/TSDF. It appears that A.A. Oil Company is a transfer station for waste oil. Most of the oil received is from other A.A. Oil sites, although he did not clarify which sites these are. None of the oil is manifested. It is all transferred to one of the several large, above-ground storage tanks on-site where it remains for less than ten (10) days. The consolidated oil is then transferred to large A.A. Oil trucks and hauled to the Westville Oil Refinery.

A thick sludge precipitates out of the stored oil at A.A. Oil. This is periodically removed from the tanks and drummed. It is shipped off-site within the ninety (90) day accumulation period. This sludge is listed on the Company's Part A as K052 (a listing which the Company disputes), but is not manifested. Mr. Morris said he considers the sludge a special waste (according to their analyses, which were not available when we requested a copy), and that he didn't know yet where the current accumulation would be disposed. Former waste shipments went to both Adams Center Landfill and Wheeler Landfill. Shipment to Wheeler Landfill was stopped when the Company learned of contamination problems there.

During the inspection, Mr. Morris showed Ms. Snedeker and Mr. Chari the storage area. Most of the ground is stained with oil. There are several old tanks that A.A. Oil is cleaning out and removing. These tanks were standing in a soil diked area which had approximately one foot of oily water in it. There is no sump or drain to collect this

waste. The newer tanks, which are currently being used, are surrounded by a concrete dike. The area is equipped with a sump and drain, but was also awash in oily water.

Mr. Morris mentioned that the site is over thirty (30) years old and that there had been a former owner. It is Ms. Snedeker's and Mr. Chari's concern that contamination may have occurred during that former ownership, prior to promulgation of RCRA. At this time, waste oil mixed with hazardous constituents may have been stored in the old tanks or spilled on the ground.

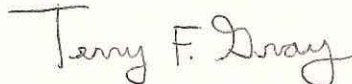

Mr. Morris had drafted a letter to the EPA explaining A.A. Oil's process. Ms. Snedeker urged him to be as specific as possible in stating why they notified as they did and why they want to withdraw their Part A. The facility should remain a generator until the status of their listed K052 waste (leaded tank bottoms from the petroleum refining industry) is determined.

Ms. Snedeker and Mr. Chari have recommended that a compliance monitoring inspection be conducted as soon as possible. If possible, the inspection should also include a staff geologist and chemist to determine what course of action to take in the matters of groundwater and soil contamination, especially in the area surrounding the old tank forms.

This site visit was not conducted within the EPA's schedule due to a lack of communication between the EPA and Ms. Snedeker. On January 23, 1985, Ms. Snedeker spoke with Ms. Edith Ardiente regarding A.A. Oil. Ms. Ardiente's phrasing of the situation led Ms. Snedeker to believe that this facility did not need a site inspection, when in fact, Ms. Ardiente was referring to the Westville Oil Refinery. The letter documenting this conversation was mailed to the EPA on February 5, 1985. Consequently, your office contacted Ms. Snedeker to clarify the situation. Thus, the permit writer's site visit was conducted.

If you have any questions regarding this matter, contact Ms. Janet Snedeker at AC 317/243-5088.

Very truly yours,

Terry F. Gray, Chief  
Plan Review and Permit Section  
Hazardous Waste Management Branch  
Division of Land Pollution Control

Re: Indiana Department of Environmental  
Management

vs.

Cam-Or, Inc., Westville Oil  
Cause No. N-135

Dear Ms. Long:

The Office of Solid and Hazardous Waste Management of the Department of Environmental Management received your request for information regarding the above-referenced matter on August 4, 1986. Enclosed, please find a copy of the November 28, 1983, Notice of Violation, Compliance Order, and Hearing in this cause.

As discussed in your August 5, 1986, conversation with Mr. Ted Warner of this office, several of the violations cited in the aforementioned action have been corrected or were never actually violations of the regulations. During the period of negotiations, the facility has complied with Nos. 4 through 24 and No. 27 of the Notice of Violation. Through further investigation and additional information available after the issuance of the action, it has been determined that the facility was not technically in violation of Nos. 25, 34, 37, 38, 39, or 42 of the Notice of Violation.

The facility, however, has still not, based on information available to this office, complied with requirements for a detailed waste analysis plan, internal alarm requirements, written operating record requirements, closure plan deficiencies, post-closure plan requirements, some container management requirements, surface impoundment freeboard requirements, surface impoundment earthen dike protective cover requirements, groundwater monitoring requirements for surface impoundments, and accumulation date requirements for hazardous waste containers. The State is proceeding with its action after receipt of the U.S. Environmental Protection Agency's sampling and analysis results on February 24, 1986, for the surface impoundments at the Westville facility.

Dear Mr. Kimball:

JUN 21 1985

Re: RCRA TSD Inspection  
A. A. Oil Company  
Indianapolis, Marion County  
IND 006054886

**INDIANAPOLIS**

The Environmental Management Board is cooperating with the U.S. Environmental Protection Agency, Region V, in carrying out the provisions of the Resource Conservation and Recovery Act, Public Law 94-580 (RCRA). In this effort, representatives of the Environmental Management Board are conducting inspections of facilities in Indiana that are engaged in the generation, transportation, treatment, storage, or disposal of hazardous waste. In addition to RCRA requirements, facilities are being inspected to determine compliance with Environmental Management Board 320 IAC 4, "Hazardous Waste Management Permit Program and Related Hazardous Waste Management Requirements."

This letter is to inform you that on May 13, 1985, an inspection of A. A. Oil Company, located at 2340 South Tibbs, Indianapolis, Indiana, was conducted by Mr. David Koepper of the Division of Land Pollution Control, Indiana State Board of Health. You represented your firm at this inspection.

It is the opinion of this office that your Company is not subject to regulation under RCRA or 320 IAC 4. The basis for this opinion is that information received during the inspection revealed that your Company does not generate a hazardous waste. However, it is your Company's responsibility to make this determination. You must submit a written determination of your status and documentation to support your decision to the U.S. EPA and this office within 35 calendar days of receipt of this letter. In addition, you must submit a written certification as to your status. This certification must be worded as follows: "I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted

information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment." This certification must be signed by the owner or operator or an authorized representative of your Company. This is the same certification that was signed by your Company when your original notification of hazardous waste activity was submitted.

If you determine that your Company does not generate a hazardous waste, you must notify the U.S. EPA and this office of your change in status and ask to be removed from the hazardous waste management system. The mailing address for the U.S. EPA is:

Region V RCRA Activities  
P.O. Box A3587  
Chicago, Illinois 60690

Please direct your response to this letter and any questions to Mr. David Koepper of the Division of Land Pollution Control, Indiana State Board of Health, AC 317/243-5107.

Very truly yours,

Attention: Edith Ardiente

Dear Edith:

We have recently been contacted by the Indiana State Board of Health regarding a Part B application for our A. A. Oil Company Division. A. A. Oil is a used oil collection and bulk transfer station. A. A. Oil Division does not process or dispose of the used oil. It does store used oil for consolidation from small pick up tank trucks (2,000-2,500 gallons) to be transferred to our Westville Oil refinery in truck transports (6,500 gallon loads).

In filling out our application for Part A, we put down that our only hazardous waste that would come into our plant would be K0-52 leaded tank bottoms. When filling out the application, we believed that we were proper in doing this on the basis that the used oil generally comes in with dirt and other particle matters which settle out in the tank. We did not realize, at the time we filled out the Part A application, that K0-52 was a specific refinery waste. A. A. Oil has never brought in that specific refinery waste oil and has no intentions of doing so in the future.

The tank bottoms that I mentioned above are generated, over a long period of time in our tanks at our facility. These tank bottoms may or may not be hazardous waste on the basis of their constituents and testing. However, they are not K0-52 leaded tank bottoms and are not presently listed by EPA as a hazardous waste. In almost all cases, these bottoms are treated as special waste in Indiana for disposal purposes and are hand filled. In summary, we feel that A. A. Oil is a transporter in compliance with Part 263 Regulation and that seeking an application for a TSDF Permit is inappropriate. Subsequently, we wish to withdraw our Part A application.

Please advise us if this letter is sufficient for withdrawal or if you need additional information or forms.

Sincerely,

Kimball L. Morris, President

Waste Management Division  
230 South Dearborn Street  
Chicago, IL 60604

Dear Mr. Burch:

Re: A.A. Oil Company Division, Cam-Or, Inc.  
Indianapolis, Indiana  
IND 006054886

Ms. Janet Snedeker of my staff was scheduled to conduct a permit writer's site visit at the above facility but has postponed the inspection until the new waste oil regulations are issued in March.

Ms. Snedeker spoke with Ms. Edith Ardiente on January 23, 1985, regarding Cam-Or's situation. There is some discrepancy as to the company's waste's characterization, so samples have been taken at the site and EPA will make a decision on identification of the waste based on analysis results. All waste oil refineries' Part B application submittals are "on hold," so Ms. Ardiente suggested waiting for the new regulations before making an inspection.

If you have any questions in regard to this matter, please contact Ms. Janet Snedeker of my Section at AC 317/243-5088.

Very truly yours,

RE: CAM-OR, Inc., AA Oil Co. G. Division  
2340 South Tibbs  
Indianapolis, Indiana 46241  
IND 006054886

Dear Mr. Kimball:

By now you should have received an acknowledgement of our receipt of the Part A permit application material for the above-referenced hazardous waste facility under the Resource Conservation and Recovery Act (RCRA) permit program. Accordingly, this letter constitutes the next step in the formal process leading toward issuance or denial of a RCRA permit. Under the authority of 40 CFR 270.10, this is a formal request for submittal of Part B of the permit application for the above-referenced facility.

Enclosed is a copy of 40 CFR 270.14, which lists the items required for submitting the Part B permit application for the facility. The Part B application must be submitted in quadruplicate and postmarked no later than April 5, 1985. The original and 3 copies of the application must be sent to the United States Environmental Protection Agency (U.S. EPA) at the address below. Please uniquely number each page of the application including all attachments (maps, specifications, etc.). A certification statement identical to the one stated in 40 CFR 270.11(d) must accompany the application and all additional submittals. Send your application to the following address:

RCRA ACTIVITIES  
Part B Permit Application  
U.S. EPA, Region V  
P.O. Box A3587  
Chicago, Illinois 60690-3587

We are committed to conducting the RCRA permitting process as efficiently as possible. Consequently, I suggest you contact Mr. Glenn Bruck of my staff, at (312) 886-1482, as you begin preparing your application. Mr. Bruck will be available to discuss specific needs of your application or to meet with you in Chicago. These efforts are intended to generate complete applications, without requiring any information beyond that which is necessary to make RCRA permit decisions.

Failure to furnish the complete Part B permit application by the above date, and to provide in full all required information, is grounds for termination of interim status under 40 CFR 270.10.

Information in the Part B permit application can be disclosed to the public, according to the Freedom of Information Act and U.S. EPA Freedom of Information regulations. If you wish, however, you may assert a claim of business confidentiality by printing the word "Confidential" on each page of the application which you believe contains confidential business information. All incoming materials containing confidential business information should be sent in a double envelope--one envelope inside the other. The inner envelope is to be addressed to the Docket Control Officer (DCO) with the following instructions: "to be opened only by the DCO."

U.S. EPA will review business confidentiality claims under regulations in 40 CFR Part 2, and may later request substantiation of such claims. Please review these rules carefully before making a claim. If you claim parts of your application as confidential, please provide us with a public information copy of the application. The public information copy must be identical to the full application with the exclusion of the confidential information.

We have also enclosed a copy of 40 CFR Part 264, which includes technical standards for the operation of treatment, storage, and land disposal facilities. These standards will become applicable to your facility upon issuance of a RCRA permit by U.S. EPA. A copy of our "Guidance For Permit Application Preparation" and "Part B Completeness Checklist" are also enclosed, they will help you in preparing a comprehensive and complete permit application.

We will coordinate review of the application with the Indiana State Board of Health (ISBH), and will strive for the simultaneous issuance of Federal and State hazardous waste facility permits. It is possible that during the processing of the application, the State hazardous waste program may become authorized to issue RCRA permits for your type of facility. In that case, direct Federal processing will cease, and ISBH in lieu of U.S. EPA will make the final determination on your permit application.

We look forward to receiving your Part B permit application.

Sincerely yours,

Karl J. Klepitsch, Jr., Chief  
Waste Management Branch
